7.1.10 REPORT ON STUDENT ATTRIBUTES

FACILITATED BY THE INSTITUTION

Sonapur College, located in a rural tribal-dominated background has always sought to contribute to the social and academic environment that persists in the area. The College is aware that in order to build a strong and healthy society it is important to shape intelligent and responsible individuals that are the foundation of any society. In this respect, the College understands the significant role that it has to play in the society by inculcating such attributes in its students so that they can lay the foundation of a healthy society and a strong nation.

In order to achieve the above, Sonapur College has always prioritised students' needs and has attempted to provide different kinds of platforms to its students – related to career growth, profession, acquiring skills for employability, growth of talents possessed by students, etc. Sonapur College understands that the holistic development of a student can be achieved by maintaining a balance between curricular, co-curricular and extra-curricular activities. The College has continuously strived towards developing infrastructure like smart classrooms, state-of-the art library, gymnasium, auditorium, etc.
